To Whom It May Concern:

This letter is to support \_\_\_\_\_'s application for extended health insurance coverage for therapy provided by me. I am a therapist who provides individual, couple and family therapy in the city of Winnipeg. I possess a Master's degree in Marriage and Family Therapy from the University of Winnipeg, one of only 2 institutions in Canada that is accredited by the American Association for Marriage and Family Therapy (AAMFT).

AAMFT is the professional association for the field of marriage and family therapy, which sets the standards for practice in Canada and the United States and also defines clinical membership and the standards for graduate education and training, clinical supervision, professional ethics and clinical practice. I am currently a full clinical member in good standing with this professional association, which also entitles me to membership with the Registry of Marriage and Family Therapists in Canada. My registration number is 96395. This may be verified either by searching the AAMFT member website ([www.therapistlocator.net](http://www.therapistlocator.net)) or the Registry of Marriage & Family Therapists in Canada Inc. ([www.marriageandfamily.ca](http://www.marriageandfamily.ca)).

As a trained and registered marriage and family therapist, I am a mental health professional trained to identify and treat mental and emotional issues individually, or within the context of couple and family relationships. I work with individuals, couples or families to identify goals and guide them in making changes in order to reach those goals. My clinical training has prepared me to work with a wide range of individual and relational issues, including stress, depression, anxiety, sexuality, family violence, childhood abuse, relationship problems, substance abuse, effective communication, psychiatric symptoms, and issues of aging.

Should you have any further questions regarding my qualifications, experience or professionalism, please feel to contact me at 204-333-9234.

Sincerely,

Lori Yusishen, BHEc, MMFT
